## WINVRS-LT

## < VEHICLE WEIGHT MANAGEMENT MADE EASY >

WinVRS-LT is the culmination of over 50 years of Cardinal truck scale industry knowledge and programming expertise combined to create an economical software package that gives you control over your truck scale operation. From the simple to use start up menu, navigate directly to the transaction screen by pressing just one key. Simply enter or select the vehicle ID and WinVRS-LT will immediately recall the information stored for that particular vehicle.

Each vehicle can be associated with a unique account, material, and one user-defined ID field for extended control. Multiple materials and accounts can be assigned on the fly or designated for manager control.

During any of the operations, the operator can have immediate assistance by pressing the F1 key to receive a detailed help guide to answer specific questions.

Editing vehicle information is easy. Either from the transaction screen or the menu, select the vehicle to edit or create a new one. Any of these features can be under specific manager password control.

The Complete WinVRS-LT System Includes:

- Dell<sup>®</sup> Optiplex<sup>®</sup> Celeron PC
- Windows<sup>®</sup> XP Professional
- 2 GHz processor (minimum) Next business day, on-site, • 128 MB RAM, 48x CD
- 56K modem. 17" monitor
- 40 GB hard drive
- Sound, mouse, keyboard
- 3-year hardware support from Dell<sup>®</sup>
- Okidata<sup>®</sup> 320 printer
- One year software support

For applications that require networking, unattended operations, accounting software interfaces, or custom applications, Cardinal offers **//////**, the ultimate Vehicle Recording System.
