

Mechanical Dial Type Portion Scales

Choose From a Multitude of Different Models!

Whatever your need in a top loading dial scale, Detecto has a model to handle the job efficiently and reliably, featuring easy-to-read fixed or rotating dials with large pointers, shatterproof lenses, stainless steel platforms, and sturdy, robust construction.

The perfect solution to limited space applications on a limited budget, Detecto's petite PT models can be ordered with a measuring cup or taco/french fry holder. Rotating dial models allow for rapid net weight filling of containers or recipe makeup by weight. Detecto's T models have large eight or ten inch dials and capacities up to 200 pounds. These models feature enamel bases and roomy chrome platforms.

Whether checking ingredients in prep areas, portioning in service areas, or receiving at the back door, Detecto top loaders help control costs.

Petite Top Loading Dial Scale

Platform 5 3/4" square stainless steel
Size 6 1/4" W x 7 1/2" D x 7 1/2" H
